iNc:

MOTU: -20
START: volume slider at 0
INSTRUMENT: 1, 2, 5, 6, 7
(line 47 in code)

TIMING: 12 min. total
(running straight through each cell in 12 min, ~13 seconds per cell)

Start sparsely, low volume, fade in, don't be afraid <u>not</u> to always loop, cutting out is <u>ok</u>, so is not playing every cell

Be aware of your neighbors

Conductor will show signs showing which general group of cells you should be playing in:

**1-10, 11-20, 21-30,
31-40, 41-50, 51-53,
53(Loop)**

Conductor will hold up fingers at 5 min. elapsed and 10 min. elapsed

Watch Conductor for any additional standard Slork hand-signals (density, volume)

ENDING: conductor will initiate 2 or three crescendos or decrescendos for the whole ensemble on cell 53
