Proposal/Grant No.
BCR75-00694

Dear Dr. Lyman:

It is a pleasure to inform you that \$254,600 is granted to Stanford University for support of the project entitled "Computer Simulation in Acoustics" as outlined in the above-numbered proposal. This project is under the direction of Ioland G. Smith and John M. Chowning, Department of Music.

The funds provided by this grant are intended to assist in the support of the project at the agreed level of effort for approximately twenty-four months. The NSF share of such support is summarized in the attached budget. The grant is effective May 1, 1975 and, unless otherwise amended, will expire on October 31, 1977. The grant period includes the flexibility period described in Section 120 of NSF 73-26, "NSF Grant Administration Manual."

The provisions of FL 25, "Administration of NSF Project Award," attached, are applicable to this grant.

Appropriate provisions of NSF 73-12, "Grants for Scientific Research," are applicable to the scientific or technical direction of the project and the preparation of technical reports.

Sincerely yours,

Gaylord L. Ellis
Grants Officer
