Dear Dr. Kahn:

On February 28 I wrote you, sending you material about proposed work in signal processing to send on to those who might be interested. I hope the material arrived. It was perhaps more than expected, but it was what Julius Smith produced and I didn't want to cut it.

I tried to call you today, but found you away, and that you will be away next week. I will be away April 16-28, and it may not be possible to reach you before I leave. I would like if possible to get some reaction to the suggested work that I described.

With all best wishes.

Yours,

John R. Pierce
