Dear Dr. Chowning:

We have had an opportunity to review the materials which you provided us on Stanford University's Center for Computer Research in Music and Acoustics, and regret that we cannot respond favorably. Our grant funds for 1980 are extremely tight and we have no funds available at this time for the support of a project of this calibre.

The recent grant to the Center for Music Experiment at the University of California, San Diego, was made after considerable discussion with them, discussions which took place over a one-year period and allowed us adequate planning time. Although we cannot take any positive action on your request at this time, there may be a possibility of doing something in 1981. We will gladly keep the material on file and would appreciate you providing us with additional information on the CCRMA as it becomes available.

Yours sincerely,

Howard Klein

Mr. John M. Chowning
Director
Professor of Music
Stanford University
Stanford, California 94305
