IV. Summary of project descrip	ion (Specify clearly how the requested funds will be spe	nt.)
With previous NEA support from the recording program CCRMA has begun a series of recordings of computer music compositions from American composers whose works have been realized at the Center. The first recording was "Computer Music-Michael McNabb". This recording was listed as one of the "best of the year" by Newsweek, the San Jose Mercury and Electronic Musician Magazine. The second recording "Dinosaur Music" - works by Chris Chafe, David Jaffe and Bill Schottstaedt is currently in production and will be released in November of this year. This proposal is to fund a third recording of works by composer John Chowning. The works to be included are of historical and musical interest and have not been previously released in any comprehensive form. Works to be included are: Sabelithe 1970 6'; Turenas 1970 10' Stria 1977 16'; Phōnē 1982 15' All works have been digitally created and stored, will be mastered directly onto digital tape and recorded on compact disk. Projected date of distribution is May 1988.
