**Subject:** Re: Proposed amendment to CCRMA-NeXT Agreement  
**cc:** jc

I talked to JC and we recommend that we ask for \$10K instead of dividing into 2K and 10K. And that we decouple the money from David explicitly but make it implicit.

Something like this - We should go ahead with this as quickly as possible.

It is proposed that, as an addendum to the CCRMA/NeXT agreement, a one-time fee of \$10K be provided by NeXT to CCRMA for the purpose of preparing the CCRMA

Music/DSP distribution for 3.0 and the additional effort that will be needed in helping with

bugs, design issues, and generally assisting the new graduate student responsible for ongoing maintenance and gate-keeping for the Music Kit..

David Jaffe will be retained to do the majority of this work as he will be able to accomplish the work in an efficient and an expedient way. The \$12K will be used to support a graduate student to maintain the Music Kit as originally proposed. Time spent on the release by Assoc. Prof. Julius Smith and others at CCRMA will be provided by CCRMA at no charge to NeXT.
