John,

I asked some of our folks to jump on this ASAP.

Thanks for the reminder.

Steve

Hi Steve,

I wanted to let you know that we have not yet received any document from NeXT regarding CCRMA's assuming responsibility for the MusicKit. I am becoming concerned because the window for finding a CS graduate student for next year will soon be closed. Even with quick success in finding a graduate student, we will be hard pressed to meet the 3.0 release because of the late date. We would appreciate very much your getting this issue un-stuck.

best wishes, John
