Professor John M. Chowning
Director, CCRMA
Stanford University
Stanford, California 94035

Dear professor Chowning,

First of all, I would like to ask for your permission to correspond directly with you regarding one of the many intriguing researches at CCRMA.

The research that I want to learn this time is rather eccentric one, "Bioelectric Controller for Computer Music Applications" referred to relationship between EEG/EOG and music by Mr. Knapp and Mr. Lusted, which I found out of the bulk of CCRMA reports sent by you to Mr. Sata, who is my boss, via Hiro Kato.

Please let me tell about the reason briefly.

R&D of our Living Division seeks new unique key or hint for "Better Sleep Environment" in the near future, and we are accordingly interested in relationship between one's mental state including emotion and his environment which hopefully involves artistic stimuli, for instance, light, sound, music, and so forth as well as physical dimensions.

Under your permission, we would like you to inform us of present status of the research, and relevant other if any, at CCRMA. Our researchers hope to visit you at the beginning of this September in their best convenience, since they are planning to visit US searching after above mentioned subjects. We would appreciate very much if you could inform us of your thought, and your best convenience on this matter if available.

We are looking forward to hearing from you.
With very best wishes,

Sincerely,

Masaharu Kuwabara
Chief Engineer
R&D Planning Division

Date: 5 August 1991

Dear Mr. Kuwabara:

You should contact Dr. Hugh Lusted directly at (415) 725-5946 at the Stanford Medical Center (we could not get a fax number for him and presently he is on vacation for a few days). He controls the use of the bioelectric controller.

Otherwise you are most welcome to visit us at CCRMA. Please let us know the day that you would like to visit.

Sincerely,

John M. Chowning
Director CCRMA
Professor of Music

JC/hmk

P.S. You can fax ^{Lusted} at our number here - he periodically checks any mail that is waiting for him at CCRMA.
