Dear Niels:

TECHNOLOGY LICENSING

We had good time with John of last week of Feb.
We, organ reserch dept. & combo instruments development
dept., have shown him many models which have already in
production and applied FM system, and also coming models
which are now on the stage of development.
We do hope that John has also been pleased to be able to
look around these progresses of his system.

Among these models in production, he brought back two sets
of beautiful posters of GS-1, as you know & F-70, world
top quality church organ by himself.

It's more than our pleasure that you put these on the wall of
your office and enjoy the fragrance of FM.

With my best regards,

Very truly yours,

NIPPON GAKKI CO., LTD
