France

Dear Jean-Claude:

Greetings! It was nice to see you last month. I hope you got the tapes from Dexter I left on the doorstep and you had a good flight.

I have a couple of items of business:

1) John is going to play Songes in Vancouver the 16th of February. I thought we had a copy but I can't find it. Can you send a $\frac{1}{2}$ track, $\frac{1}{4}$ ", no DBX, please? I have a copy of the program notes, but no bio. Can you send that along, also?

2) Separately, it would be nice if CCRMA had a good copy of all your computer music works in our archive with the relevant material. When you have a spare moment could you send us copies? I'll be glad to reimburse any expenses involved.

X In regards to next summer: CCRMA would like to invite you as a visiting professor for the summer of 1986. We will provide travel expenses (round-trip airfare for one person) and a salary of \$4,200 for teaching the computer music workshop (June 23-July 18). I have asked the university for housing information and rates and will forward that to you soon.

Best regards to Rozenn and yourself.
