Dr. Hiro Kato  
Miss Patty Wood  
CCRMA  
Stanford University  
Stanford, California 94305

Dear Dr. Kato:

Dear Patty:

It has been a great pleasure to hear from you. I am looking forward to the next opportunity to see you and discuss topics of mutual interest.

Thank you for taking care of our visits to CCRMA so often.

Our next visit to meet is probably in 1986, next month.

This letter confirms our telephone conversation regarding Mr. Ohno's visit to your place.

On the 5th of August (Monday), around 1:00 pm, Mr. K. Ohno, an engineer for Yamaha, will visit your place directly.

He is interested in computer music in general, and computer aided instruction.

I would be very much appreciative if you could arrange some explanations for him at CCRMA.

Also please find a copy of MCS-manual enclosed. This is an updated manual for MIDI communication chips that I sent to you via Mr. Reimers in April.

I hope the chips are useful for the projects at CCRMA.

I hope new place for CCRMA is going to be most exciting, and I look forward to seeing it.

Please give my best regards to John/P and everybody.

Sincerely,

*Hiro Kato*  
Hiro Kato  
Yamaha

PS. I am going to see John/C in Paris around the 1st of July.
