SUBJECT: CCRMA -- Foundation Support

I have consulted with Henry Organ who staffs local foundation fundraising about the Hewlett Foundation and Packard Foundation as prospects for CCRMA.

Neither foundation has a stated interest that could, by any stretch of interpretation, be related to your project.

However, this is not discouraging information. All it means is that we should continue the strategy of involving young Hewlett and young Packard in the Center and, at the appropriate time, solicit them as individuals. (Their gifts might in fact come through the Foundations, but it is not appropriate for Stanford to approach the Foundation through the normal route.)
