

POETIC PARKING

Functional Street Art.

Poetic Parking revives the city sidewalk. This bike rack is rich with symbolism about connection, movement, dynamism. It's an icon of San Francisco built to serve its residents.

Designed for human flourishing

This bike racks connects two bikes, thus connecting two people. More bike racks inspire less driving, more interaction with the city, and better lifestyles. Ultimately, Poetic Parking encourages a more active, aesthetic, social, and eudaimonistic way of life.
