

Picture It

A VR App That Lets You See It Before You Buy It!

Have you ever wondered...

What would that shirt look like on me?

Will that poster look good above my bed?

Which couch looks better in my living room?

Will the blue lamp or the black lamp look better in my room?

Save time and make better purchases in just a few simple steps!

1

Furniture/Decor: Take a video of the area where you will place the item and upload it to the app.

Clothing: Use our Picture It mirror to let the app simulate a version of you to try on clothes.

2

Choose from one of many products available to be seen on the app. Don't see a product you want? Request it on our website: www.pictureit.com

3

Put on your goggles and guide the simulation to place the item where you want it.

4

Look at your product and find out if it's right for you! If it didn't work out, **Picture It** always has suggestions of new products customized to your interests!

Upload Your Video Here

Make sure you capture all the surroundings of the object, including the floor and the ceiling in a 30 second video using your phone's camera!
