Feel the spark from the bark

## 🐾 PURPOSE

Elderdogs are plastic robotic AI dogs that assist and accompany the elderly

## 🐾 ABILITIES

Elderdogs can talk, help with everyday tasks, monitor health, and entertain

## 🐾 COLORS

# MANIFESTO

Many elderly people resist and refuse the help they need, such as going to a retirement home or having helpers in their home. This often leads to inadequate healthcare and loneliness. Elderdogs are simple, plastic AI robots in the shape of a loving and cute dog that would accompany the elderly in their homes to ensure wellbeing.
