YouVote

a system designed to virtually connect campaigns and constituents ahead of the elections
TELOS

- People: provide information about representatives
- Awareness: system against falsification
- Growth: increase the number of votes among citizens
**USER EXPERIENCE**

**Action 1**
A platform provides a political background of each candidate, campaign, biography, and electoral experience

**Action 2**
The collected information from multiple sources will be posted, as well as consults with local experts and analytical prognosis

**Action 3**
For the audience engagement under the candidate's post, verified users of the platform (upload of a government-issued ID) may leave a comment or an observation

**Action 4**
YouVote helps to take the first step towards bringing real competition back into our political life
